

L3AI LOCAL PRODUCTION OUTPUT - PROD-ENGINE-001 - LOCAL PRODUCTION OUTPUT / NOT PUBLISHED / APPROVAL REQUIRED

L3AI investor_deck_narrative

L3AI Investor Deck Narrative

Slide 1: Title

English

L3AI

AI-native financial intelligence for Web3 users.

简体中文

L3AI

面向 Web3 用户的 AI 原生金融智能平台。

Slide 2: Market Context

English

Web3 users face a fast-moving financial environment where wallet activity, market information, product modules, community updates, and risk signals are scattered across different surfaces.

Key points:

- Users need clearer context before making decisions.
- Information overload creates friction and uncertainty.
- AI can help organize context, but it must be presented with careful risk language.

简体中文

Web3 用户面对的是快速变化的金融环境，钱包活动、市场信息、产品模块、社区动态和风险信号分散在不同界面中。

要点：

- 用户在决策前需要更清晰的语境。
- 信息过载会带来摩擦和不确定性。
- AI 可以帮助整理语境，但必须以审慎的风险语言呈现。

Slide 3: User Problem

English

The core problem is not access to information. The core problem is understanding.

Users often ask:

- What am I looking at?
- Why does it matter?
- What risks should I consider?
- How does this product experience connect to my wallet and activity?

简体中文

核心问题不是缺少信息，而是难以理解信息。

用户常常会问：

- 我正在看什么？
- 这为什么重要？
- 我应考虑哪些风险？
- 这个产品体验如何与我的钱包和活动相关？

Slide 4: L3AI Solution

English

L3AI brings AI-assisted context, wallet-aware experiences, product education, and community learning into one structured journey.

The platform helps users:

- Organize fragmented Web3 information.
- Understand product modules in plain language.
- Review wallet-related context with greater awareness.
- Learn through community and ecosystem content.

简体中文

L3AI 将 AI 辅助语境、钱包感知型体验、产品教育和社区学习整合为一个有结构的路径。

平台帮助用户：

- 整理碎片化 Web3 信息。
- 用清晰语言理解产品模块。
- 以更充分的认知查看钱包相关语境。
- 通过社区和生态内容学习。

Slide 5: Product Structure

English

L3AI is organized around five product layers:

- AI market context
- Wallet-aware experience
- Product education
- Risk-aware user journey
- Community and ecosystem learning

Together, these layers create a clearer path from discovery to informed participation.

简体中文

L3AI 围绕五个产品层组织：

- AI 市场语境
- 钱包感知型体验
- 产品教育
- 风险意识型用户路径
- 社区与生态学习

这些层共同构成从发现到理性参与的清晰路径。

Slide 6: AI Experience

English

AI in L3AI is used to support clarity, not certainty.

AI-assisted workflows can:

- Summarize market and product context.
- Explain complex Web3 concepts.
- Reduce noise across information sources.

- Support structured review before action.

简体中文

L3AI 中的 AI 用于支持清晰理解，而不是制造确定性。

AI 辅助工作流可以：

- 摘要市场与产品语境。
- 解释复杂 Web3 概念。
- 减少不同信息来源中的噪音。
- 支持行动前的结构化查看。

Slide 7: Trust And Risk Posture

English

L3AI takes a risk-aware approach to product language and user journeys.

The platform avoids:

- Guaranteed outcome claims.
- Pressure-based conversion language.
- Unsupported endorsement claims.
- Hype-driven financial messaging.

简体中文

L3AI 在产品语言和用户路径中采用风险意识型表达。

平台避免：

- 结果保证类表述。
- 压力式转化语言。
- 未经确认的背书表述。
- 夸张的金融传播话术。

Slide 8: Community And Ecosystem

English

L3AI supports a community model built around learning, context, and responsible participation.

Community value comes from:

- Shared education.
- Plain-language product understanding.
- Ecosystem awareness.
- Safer expectations around digital-asset activity.

简体中文

L3AI 支持围绕学习、语境和负责任参与建立的社区模式。

社区价值来自：

- 共同学习。
- 清晰语言下的产品理解。
- 生态认知。
- 围绕数字资产活动的更审慎预期。

Slide 9: Go-To-Market Narrative

English

L3AI can reach users through a content-led and product-led journey:

- Website: clear product explanation and FAQ.
- Community: education, onboarding, and discussion.
- Media: concise product story and risk-aware positioning.
- Investor narrative: platform clarity, category opportunity, and operating discipline.

简体中文

L3AI 可以通过内容驱动和产品驱动的路径触达用户：

- 网站：清晰产品说明和常见问题。
- 社区：教育、入门和讨论。
- 媒体：简洁产品故事和风险意识型定位。
- 投资人叙事：平台清晰度、品类机会和运营纪律。

Slide 10: Operating Principles

English

L3AI is built around disciplined communication and product clarity.

Operating principles:

- Evidence before claims.
- User understanding before conversion.
- Risk visibility before action.
- Bilingual clarity across English and Simplified Chinese.

简体中文

L3AI 围绕有纪律的沟通和清晰产品表达构建。

运营原则：

- 先有依据，再做表达。
- 先让用户理解，再推动行动。
- 行动之前保持风险可见。
- 在英文与简体中文中保持含义清晰一致。

Slide 11: Roadmap Narrative

English

The L3AI roadmap can be communicated as a staged product journey:

- Strengthen product education and onboarding.
- Expand wallet-aware and AI-assisted experiences.
- Improve community learning and ecosystem content.
- Continue refining risk-aware product communication.

简体中文

L3AI 路线图可以表达为分阶段的产品路径：

- 强化产品教育和入门体验。
- 扩展钱包感知型与 AI 辅助体验。
- 完善社区学习和生态内容。
- 持续优化风险意识型产品沟通。

Slide 12: Closing

English

L3AI brings clarity to Web3 finance by combining AI-assisted context, wallet-aware experiences, product education, and community learning.

Closing line:

Understand more clearly. Participate more thoughtfully.

简体中文

L3AI 通过 AI 辅助语境、钱包感知型体验、产品教育和社区学习，为 Web3 金融带来更清晰的理解方式。

结尾语：

更清楚地理解，更审慎地参与。
